Matt Moffett, Gray, Rust, St. Amand, Moffett & Brieske LLP, Atlanta

The reptile technique is an effective trial strategy against the unprepared or ignorant defendant and defense lawyer. As one claims manager of a national insurer told me: Better know what Reptile is. Better hire defense lawyers who know too. Or just get your resume up to date.

What is this strategy? What does it work? How do you the defense lawyer counter it effectively?

Matt Moffett is a defense lawyer from Atlanta. He beat the Reptile and its authors in a wrongful death trial and will show you how you can do the same!
